

## USED NEEDLE DISPOSAL PROGRAM

### The Department of Environmental Health and Safety

Plastic containers for **disposal of used syringes and needles** are available, in Environmental Health and Safety, for use by **STUDENTS**.

Those students who are diabetic or otherwise using syringes and needles for medical purposes are invited to call **Michele Crase at 753-9251**. The needle container and the disposal of full containers are **free to students**. There are no forms to fill out and no personal information needs to be given to receive the containers.

The purpose of this program is to provide a **safe means for student to dispose of used medical syringes**.
